

### Helsingborgs Stad

- **Challenge:**  
Providing printers for all users, including 1-to-1 student users and home users. Minimizing printer driver management and upgrading to a 64-bit platform for print servers.
- **Solution:**  
ThinPrint Server Engine delivers Driver Free Printing and minimal management for both local clients and Citrix XenApp servers.
- **Benefits:**  
Less print servers and drivers make managing the print environment an effortless task, significantly reducing time and cost at the same time.
- **Customer Feedback:**  
*“The benefits of the ThinPrint Server Engine are particularly clear when it comes to managing drivers and improved printer handling. Our service staff have a better overview of the print environment and more time to deal with other tasks.”*

Kim Nilsson, IT Infrastructure Manager, Helsingborgs Stad IT
