Helsingborgs Stad

HELSINGBORG

- **Challenge**: Providing printers for all users, including 1-to-1 student users and home users. Minimizing printer driver management and upgrading to a 64-bit platform for print servers.

- **Solution:** ThinPrint Engine delivers Driver Free Printing and minimal management for both local clients and Citrix XenApp servers.

- **Benefits**: Less print servers and drivers make managing the print environment an effortless task, significantly reducing time and cost at the same time.

- **Customer Feedback**: "The benefits of the ThinPrint Engine are particularly clear when it comes to managing drivers and improved printer handling. Our service staff have a better overview of the print environment and more time to deal with other tasks." *Kim Nilsson, IT Infrastructure Manager, Helsingborgs Stad IT*
