Systéame's Customers Enjoy High-Performance & Fast Printing from the Cloud with ThinPrint

- **Task:** Systéame, based in France, hosts office solutions for customers in the region and wanted to offer high-performance printing from the cloud.

- **Solution:** By using ThinPrint, Systéame's customers print via the cloud just as fast and easy as if they had their own print sever located in their network. Administration is easy as ThinPrint's Driver Free Printing technology means Systéame IT professionals do not even need to know what exact printer models are in use among their customers.

- **Quote:** "Printing is one of the essential topics that must be considered when implementing a cloud solution. We are happy that we provide a complete solution for the virtual office with ThinPrint, offering exceptional print performance. In addition, the license model available with ThinPrint offers us flexibility and is very economical for us." *David Peru, Sales Director, Systéame*
